CONSTRUCTION NOTICE

Work Location: 28W244 Warrenville Road
(NE corner Batavia Road and Warrenville Road)
January 4, 2021

The City of Warrenville and its contractor, Stiles Inc., will begin the removal of underground storage tanks at 28W244 Warrenville Road the week of January 11, 2021. The work will last approximately 5 days (weather dependent). The scope of work includes erecting a temporary construction fence around the site, removal of four underground storage tanks, pumps, piping and surrounding soil, and placement of aggregate stone back to grade. The contractor will have construction equipment and a dumpster onsite, will use generators when necessary for power connection, and will have dump trucks traveling to the site as necessary for tank and soil removals. Batavia Road and Warrenville Road will remain open for normal traffic circulation. Access to adjacent properties will also remain open. If at any time, the contractor would temporarily close any driveway access, the contractor would notify the property owner and the City.

The City will also have an engineering consultant, Terracon Consultants, onsite at all times monitoring the work and addressing any concerns from the adjacent businesses. If you have any questions, please contact Kristine Hocking, PE, City of Warrenville Senior Civil Engineer, at khocking@warrenville.il.us, or at 630-836-3066.
